

PND Engineers Inc.

Now Hiring

PND Engineers, Inc. operates as an engineering consulting firm. The Firm provides arctic, building and structural, bridge, civil, coastal, geotechnical, and marine engineering services. PND Engineers serves customers in the United States.

We are looking for:

Civil Engineer

Civil design engineer with current P.E. registration and 5-10 years of professional experience for a key position in our multi-discipline **Juneau** office working on challenging civil design and construction administration projects with special emphasis in Alaska's beautiful coastal environments. Duties include roadway, utilities and waterfront facility design, project management, and contract administration

Geotechnical Engineer

Experienced geotechnical engineer to join our **Anchorage** team supporting civil engineering projects throughout Alaska. Offering a variety of interesting projects and state-of-the-art laboratory equipment. Prepare geotechnical reports, produce foundation design/analysis and contract documents for marine structures, arctic structures, retaining walls, soil improvement, roads, bridges and general site civil development - all with an emphasis on foundations systems. Plan and manage geotechnical field investigations, conduct geotechnical and geological analyses, manage and execute design projects and budgets. Master's degree in civil engineering and 3+ years of experience preferred.
