The Alaska Adult Education Student

An adult education student refers to students who are English language learners and/or studying to increase their ability to:

- read, write, and speak (in English) and perform mathematics or other activities necessary for attainment of a secondary school diploma by examination;
- transition to postsecondary education and/or training; and/or
- obtain employment.

An "English language learner" refers to a student who has limited ability in reading, writing, speaking, or comprehension of the English language, and--

- whose native language is a language other than English; or
- who lives in a family or community environment where a language other than English is the dominant language

Adult education and literacy activities refers to programs, activities, and services including:

- adult education (reading, writing, mathematics, science, social studies, etc);
- workplace adult education and literacy activities;
- family literacy activities;
- English language acquisition activities;
- integrated English literacy and civics education;
- workforce preparation activities; or
- integrated education and training.

Eligibility

Alaska requires adults meet the following criteria to be eligible for adult education services:

The student:

- is 18 years of age or older;
- is physically present in the state; and
- is not enrolled in a high school program;

To assess an individual for the GED, they must meet the above criteria and

- have not received a diploma or certificate through a high school or GED program in another state, province, or U.S. possession.

If a student is 16 or 17 years old, they must meet all of the above eligibility guidelines, with the following additional documentation:

- a legal emancipation document or a signed and notarized statement of consent from a parent or legal guardian; and
- official documentation of withdrawal from the last school attended in Alaska.

If youth are incarcerated in prison, and have been placed into the custody of the state, they do not need additional documentation to meet eligibility requirements.

Alaska Adult Education Application - AlaskaJobs

Alaska requires all students be enrolled in a Regional Adult Education Program to receive adult education services. Alaska Adult Education (AAE) programs have a universal application that corresponds with the information required for reporting in the AlaskaJobs System. A paper application may be used with students, but at no time shall forms be given to students to fill out on their own. Staff must assist students with filling out intake information and helping them understand mandated reportable questions. All students must complete a paper or computer application within 10 days of program orientation.

Individual programs may add their logo to the paper application on the top right corner, opposite the Jobs logo. Additional information, such as program and company name, address, or informational block, etc., may be added to the document at the bottom of the form. However the body, style, and/or format of the application must remain intact.

Data Entry Expectations

Every staff member in an AAE program plays a role in the data collection process. Regional programs must have data collection processes written and in place that includes staff who are trained, understand their roles and responsibilities, and have the necessary tools and resources.

AAE programs will ensure that data is entered into data management system in a timely manner.

- Programs are required to enter student information (application, attendances, assessments, etc.) by the 15th of the following month. (i.e., March's data must be entered by April 15th);
- Request for personnel staff accounts must be received within 15 days of the employees start date; and
- July 15th is the deadline to enter information prior to fiscal year reporting.

Before entering student information, Data Entry Staff must search the AlaskaJobs and GEDTS for previous records.

AlaskaJobs Roles and Responsibilities

Previously, many programs relied on a data entry clerk to enter all data related to the student. This included student demographics, enrollment, attendance, and assessment data. This has changed with the integration into the AlaskaJobs System.

Student's Responsibility

Students must complete at least a Comprehensive Registration in the AlaskaJobs System. The expectation is that students will create their own accounts as it is tied into the information from the job center and the information they will need to create their resumes and job search.

There will be some exceptions made for DOC, students with limited English language proficiency, and village students who lack internet connection.

Students must use their myAlaska account to log on and complete the registration process.

Data Entry Specialist's Responsibility

Data entry is the primary responsibility of the data entry specialist or the program coordinator (PC), acting as a data entry specialist. Teachers are not expected to act as data entry specialists as they have their own responsibilities to manage within AlaskaJobs.

- The student's AAE application and enrollment, previously referred to as intake, **MUST** be completed with the student. Programs are responsible for collecting WIOA reporting requirements accurately and timely.

- It is the expectation of the US Dept. of Education (DOE), Office of Career, Technical, and Adult Education (OCTAE) that enrollment is completed one-on-one or within small groups and not just handing students a form to fill out.
- Data entry specialists must manage the following sections of the AlaskaJobs System to maintain the integrity of data in accordance with National Reporting System (NRS) for Adult Education guidance:
 - Student application and enrollment information;
 - Participation record and date;
 - Activities, Enrollments, and Services: including AE1 initial service code and any follow up codes; actual begin and projected end dates; and provider information;
 - Initial class registration;
 - Maintaining partner programs;
 - Verification of assessments, high school equivalency tests, and credential attainment; and
 - Reporting measureable skill gain.
- Assessment data must be entered by the data entry specialist or the individuals who is responsible for administering the assessment. Once completed, a nightly interface with TABE and GED will ensure assessments and credential attainment is updated in VOS. Assessment data will only need to be checked regularly to ensure the integrity of the import. BEST and CASAS data will continue to be manually inputted.
 - Individuals who are completing assessment have the responsibility of initial class placement. Placement should be based on pre-assessment scores.

Data entry specialists have access to Detailed Reports to assist them with data entry tasks. They can run Soon to Exit, Class Registration, or Assessment Results to help them monitor activity.

Teacher's Responsibility

Managing classes are the primary responsibility of the teacher or PC acting as a teacher. Teachers have the ability to set up their classes and either add or transfer students into or from their class. Each "Class" will have at least a primary instructor that will manage the attendance. Some classes can also have a secondary instructor to help manage attendance. Data entry specialists that also assist with attendance, will need to be assigned as a secondary instructor.

For Example: I teach a Blended Learning class on Tuesdays and Thursdays. It is an AAE Pre-Secondary Math class and I teach in-person in Nome. However, Donna helps monitor the distance education piece of the learning. She reaches out to students at least once a week and she monitors the Essential Education proxy hours.

When I sent up the class, I am the primary teacher and Donna is the secondary teacher. I enter the face-to-face attendance hours and Donna enters the distance education attendance hours.

Teachers have access to Detailed Reports to assist them with managing their classes. They can run Class Attendance, Student Attendance, or Student Contact Reports to assist with maintaining their classes.

Program Coordinator's Responsibility

On top of helping all other areas with their responsibilities, there are certain functions that only PCs will have privileges to complete.

Grantee to Grantee Transfers may only be completed by a PC. The program requesting or transferring the student **must** have a release of information (ROI) signed by the student and/or a parent/guardian, if the student is a minor. The signed ROI **must** be attached to a case note prior to completing the transfer.

Authorization of a minor to receive adult education services must be approved by a PC. PCs must go into the 17/16 year old's case and enter a case note to approve their program entry. The following must be attached to the student's case:

- a legal emancipation document or a signed and notarized statement of consent from a parent or legal guardian; and
- official documentation of withdrawal from the last school attended in Alaska.
If youth are incarcerated in prison, and have been placed into the custody of the state, they do not need additional documentation to meet eligibility requirements.

PCs have access to detailed reports to better monitor AAE activities. Adult education reports allow the PC to assist teacher with managing their classes, assessments, registration, and attendance. They also have access to Predictive Adult Education reports. These reports are tools to monitor Educational Functioning Levels, Measureable Skills Gains, and Enrollment Data of students as they will be reported annually on the NRS Tables. It is highly recommended that these reports be viewed monthly for discrepancies.

- Gender/Race/Ethnicity Discrepancy Report (*coming soon*).
 - In order to populate NRS tables, data entry specialists must select a gender, race, and ethnicity of the individual. There are options available for “Did Not Self-Disclose”, “Did Not Self-Identify”, or “I Do Not Wish to Answer”.
 - **US DOE mandates** that these questions be answered, even if program personnel choose the answer they believe to be accurate. Any individual on this report will not be identified on certain NRS tables and data will not match.
 - To offset this issue, all programs **MUST** run the Discrepancy Report and fix any outstanding issues by the 15th of the following month.

Professional development (PD) hours of staff and volunteers are required. The AlaskaJobs System houses PD for all staff (*coming soon*). PCs are responsible for inputting the following information for their staff: PD hours, trainer's name, dates, and title of presentation. They are also responsible for determining the difference between trainings and professional development:

- **Training:** operationally focused and allows individuals to become more competent at their jobs.
- **Professional Development:** builds upon the knowledge, skills, and abilities of the staff member to benefit the student;

Technical assistance and training must be provided first at the PC level. Remediation and troubleshooting should begin with the PC and escalate to the AAE office if errors continue to occur. Technical support and system maintenance emails should come directly from the PC. The following information and screen shots (if possible) need to be provided:

1. Where in the system the issue occurred (Manage Adult Education -> Manage Class Attendance);
2. What you expect the system to be doing, based on training (We should be able to add attendance to all student in the class);
3. What actually is happening (We are not able to add attendance);

4. Who is running into the issue and who is not (Donna Collins: Program Coordinator is able to add attendance; Windy Swearingin: Teacher is not able to us this function);
5. A good number to contact number for the person who is running into the issue (Windy Swearingin 907-465-8714); and
6. State ID and AED Case # of the student for Donna to test with (Student ID 8000111121; AED Case #512152).

Case Notes Guidelines

Case notes, in the AlaskaJobs System, are designed to inform PCs and the AAE Office of the students' progress, while protecting their information. Case notes that are written by a staff member, cannot be viewed by other staff members with the same privileges. They may only be view by staff members with higher privileges, such as PCs and the AAE Office. Grantees may not view the case notes of other grantees regarding students.

Program coordinators should be reviewing case notes of staff members and assisting with the documentation process. The AAE Office will be periodically reviewing case notes in the AlaskaJobs System. As part of ongoing monitoring efforts, and to ensure quality date entry standards, case notes will provide a record of services, activities, and justifications associated with the student. Case notes should clearly articulate what and why supports and services are rendered.

Not all student documentation should be kept in electronic case notes. Confidential information that is best to keep in a hard copy file, should continue to do so. The most common case notes the AAE Office will be monitoring will include the following:

- Approval for 16/17 year old to access services;
 - Including uploaded documentation: a legal emancipation document or a signed and notarized statement of consent from a parent or legal guardian; and official documentation of withdrawal from the last school attended in Alaska.
- Accommodation justification for TABE testing;
- Accommodation request for GED testing;
- Justification for not determining eligibility of a student;
- Uploaded documentation: signed Distance Learning Student Contract;
- Justification for assessment of student prior to the recommended hours of post-test;
 - Including uploaded documentation: Waiver Form to Test before Completion of Recommended Hours;
- Referrals to partner programs;
 - Including uploaded documentation: Release of Information (ROI) documents;
- Justification for class changes without assessment documentation to backup changes;

Case Notes – Dos and Don'ts

When writing case notes, information should be:

- | | |
|------------------------|--------------------------|
| • Factual and Accurate | • Grammatically Correct |
| • Concise and Clear | • Specific |
| • Readable | • Necessary and Relevant |

Avoid the following:

- | | |
|--|------------|
| • Frustrations with students, classes, staff, etc. | • Opinions |
| | • Jargon |

- Slang
- Religion or Politics
- Overuse of Acronyms
- Gossip

Examples

- Sarah is a 17 year old student who was accompanied into Fairbanks Regional AE Program by her Mother Beth. Beth provided both a signed, notarized permission slip and school withdrawal letter from Fairbanks HS. Both are attached. She is approved to start classes on Monday.
- Jeremy has been excelling in reading. When initially tested last month, he score a 400 on the TABE. However we are moving him up to the advance reading class because he is displaying skills beyond his TABE scores.
- Extended time has been added to Timmy's TABE Post Assessment. He is in the process of working with GED to obtain accommodations for GED testing. IEP was provided by student and hard copy is located in file.
- Jennifer stated she is interested in taking CDL classes, but could not pay the course fee. She is a single mom with 3 children. She was laid off her job last month and trying to obtain her alternative HS diploma. Referred Jennifer to job center to determine if she would qualify for funding for CDL classes.
- Tiffany is moving to Juneau. She has been a regular and has been making gains in Bethel and we do not want her to lose ground. Had her sign a release (attached) for a grantee to grantee transfer. Spoke to Southeast Regional AE this morning and we will transfer her case next Tuesday.

Students' education records, including application, assessment information, attendance, AlaskaJobs System information, etc. are protected by FERPA law. AAE programs are required to have a signed consent to disclose personally identifiable information (PII).

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. Alaska Adult Education has strict guidelines regarding confidentiality of student records.

AAE Student Application

The application process is more than obtaining information, it is about building a rapport with your student. Applications should always be completed with the student as there are terms required that will need explanation. Use clear, simple language to briefly describe and discuss the purpose of the applications and any definitions. If the student chooses to divulge personal information, such as a disability or medical conditions, assure them that this information is confidential.

The application is a snapshot of the student's information at the time of enrollment. Information required in the AAE application section of AlaskaJobs will be marked with an asterisk (*). Approximately 90 percent of information that is filled out by the student will prepopulate the AAE application and the data entry specialist will need to verify the information prior to making the student eligible.

Once submitted, information on the AAE application cannot be changed, with the exception of basic contact information. Any other changes will have to be made by the AAE Office. Changing information (email, phone number, address, etc.) on the AAE application, will not affect the student's personal profile.

Application Definitions

In the definitions below:

*** Required Information** – Entered or updated by staff during application process.

**** Required Information** – Entered into AlaskaJobs by student, verified by AE Regional Program; updated as necessary.

Top of Application

To be completed by the regional program – **All fields required**

- **AlaskaJobs State ID #:** auto-generated by the AlaskaJobs system and located in the “Individual Detail” tab.
- **Program Year:** program year when the application was completed. Note: program years (PY) run from July 1 to June 30. The year in which the start, is the PY. Ex: July 1, 2020- June 30, 2021 is PY20.
- **Eligibility Date:** date the student was determined eligible for AE services. This date must match the application date in the AlaskaJobs System.
- **AED Case #:** auto-generated by the system once the application is complete and can be located in the “Programs” tab.
- **Is the Student? New or returning:** mark the correct box. Note: returning students will have a closed AED Case in AlaskaJobs.
- **Intake Completed By:** first and last name of the individual who is assisting with the completion of the application; not the individual inputting the data.
- **AAE Regional Program:** regional AE program, not where the individual is located.

Student's Contact Information

- **** Full Name:** first, middle initial and last name of the student as it appears on legal documents.
- **** Social Security Number (SSN):** nine-digit personal identification number issued by the federal government. AAE requires providers request SSNs from the student as they are critical for data

matches for federal reporting purposes. Providers may not deny services in the event the individual refuses to disclose his or her SSN. (Updated only by AAE Program Office)

- SSN is view only. If changes need to be made, changes can only be made by contacting the State AAE Office.
- If they student chooses not to supply their SSN, the system will auto-generate a number for them.

Barriers to Employment

- *** Cultural Barriers** – the student faces substantial cultural barriers that may be a barrier to employment. The student perceives him or herself as possessing attitudes, beliefs, customs or practices that influence a way of thinking, acting or working that may serve as a hindrance to employment. Examples include:
 - language and communication skill deficient;
 - lack of understanding of career pathways, employment options, and soft skills needed for employment;
 - discrimination due to customs or beliefs that do not fit current norms;
 - age and time out of school and stigma associated with lack of diploma.

(Participant Individual Record Layout)

The Participant Individual Record Layout (PIRL) was developed collaboratively by the U.S. Departments of Labor and Education as a part of the Workforce Innovation and Opportunity Act (WIOA) performance accountability related provisions. The PIRL represents a set of common definitions that are shared across multiple programs for performance reporting.

Common Performance Reporting [PIRL](#), defines elements that are common across the Department of Labor and Department of Education core WIOA programs, including Title II Adult Education Programs. PIRL data elements are captured at intake and exit by AK Adult Ed Programs.

Credential Attainment: Percentage of participants enrolled in an education or training program (excluding those in on-the-job training (OJT) and customized training) who attained a recognized postsecondary credential or a secondary school diploma, or its recognized equivalent, during participation in or within one year after exit from the program.

- A participant who has attained a secondary school diploma or its recognized equivalent is included in the percentage of participants who have attained a secondary school diploma or its recognized equivalent only if the participant also is employed or is enrolled in an education or training program leading to a recognized postsecondary credential within one year after exit from the program.

Date of Exit: Student is considered “exited” after 90 days have elapsed since the last date of service and no future services are planned.

Exit Criteria: The date of exit from the program is the last date of service.

- Reportable individual must be considered “exited” when 90 days have elapsed since the last date of service and no future services are planned. This means the individual has had 90 days of no services, including self-service and information-only service, since being identified as a reportable individual.
Intake Form Required for New Period of Participation – Under WIOA Regulations, if a student is gone for 91 or more days and returns to study, the student is in a new Period of Participation (see below). AK Adult Ed Programs must have the student complete a new intake form (*currently under revision*). Changes in the student’s information must be changed in the AlaskaJobs System.

Integrated Education and Training Program (IET): A service approach that provides adult education and literacy activities concurrently and contextually with workforce preparation activities and workforce training for a specific occupation or occupational cluster for the purpose of educational and career advancement.

Measurable Skill Gains: Percentage of students who, during a program year, are in an education or training program that leads to a recognized postsecondary credential or employment and who are achieving measurable skill gains, defined as documented academic, technical, occupational, or other forms of progress, towards such a credential or employment. Depending on the type of education or training program, documented progress is defined as one of the following:

- Documented achievement of at least one educational functioning level of a participant who is receiving instruction below the postsecondary education level;
- Documented attainment of a secondary school diploma or its recognized equivalent;
- Secondary or postsecondary transcript or report card for a sufficient number of credit hours that shows a participant is meeting the State unit’s academic standards;

- Satisfactory or better progress report, towards established milestones, such as completion of OJT or completion of one year of an apprenticeship program or similar milestones, from an employer or training provider who is providing training; or
- Successful passage of an exam that is required for a particular occupation or progress in attaining technical or occupational skills as evidenced by trade-related benchmarks such as knowledge-based exams.

Participant: Students who have completed 12 or more contact hours, have current intake forms reported, and have current TABE or BEST assessment.

Participant Individual Record Layout (PIRL): Data layout that provides a standardized set of data elements, definitions, and reporting instructions that will be used to describe the characteristics, activities, and outcomes of WIOA participants.

Periods of Participation: Any break in AK Adult Ed services greater than 90 days is the start of a new Period of Participation (POP). The AlaskaJobs System tracks the number of POPs a student has within one fiscal year.

Reportable Individual: Any student who completes an intake form and the TABE or BEST tests. These individuals are part time students whose total attendance in the fiscal year is less than 12 hours.
