

Coastal Villages Recruitment

JOB DESCRIPTION

The primary job responsibilities of the Seafood Processor include, but are not limited to: working on-board our fishing vessel operating off the western coasts of Washington and Alaska. The Processor is responsible for converting raw fish products into a processed, high-quality product ready for sale. The Processor may sort fish by species, tend and operate machines, hand fillet whole fish and inspect the product to meet CAPS standards of quality. Also, they may be responsible for packaging, weighing, labeling, placing the product into freezers, loading and unloading supplies on the vessel, cleaning factory equipment and performing other duties as assigned. Previous Processing experience aboard a Factory Trawler strongly preferred.

Pay is percentage of cash
